BUSINESS INTELLIGENCE & ANALYTICS CLOUD

100M DATA POINTS

1K USERS & ADMINISTRATORS

10 COUNTRIES & LOCATIONS

Business application platforms that employees can access entirely over the Internet – there's no infrastructure to buy, set up, or manage – you just log in and get to work. Easy to use, beautiful, powerful and mobile ready.

WHY SOV.TECH?

We strive to deliver to our clients the leading software platform for businesses in Africa. Work with elite developers, purchase leading products & hire premium services online. Our track record spans industries, geographies and organisation sizes.

COMPREHENSIVE DATA & REPORTING PLATFORM

MODERN, SIMPLIFIED, INTERACTIVE

Our approach empowers business users to access, discover and blend any data types regardless of their size. With a full spectrum of increasingly advanced analytics tools, from basic reports to predictive modelling, users can help themselves.

GATHER YOUR DATA CENTRALLY

Our Data Integration, also known as Agile, delivers powerful extraction, transformation, and loading (ETL) capabilities. You can use this stand-alone application to visually design, transform and extract your existing data and make it available for easy reporting and analysis.

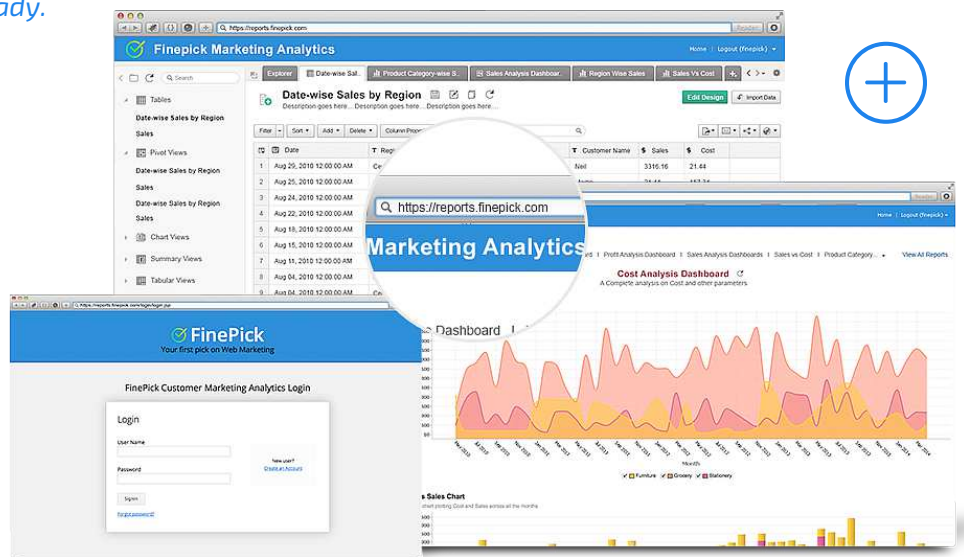

MAXIMISE EFFICIENCY & INSIGHT

The Report Designer is a graphical tool that generates reports from data streamed through the Data Integration engine without the need for any intermediate staging tables. You can output your reports in several formats, including PDF, Excel, HTML, rich-text-file, XML, and CSV.

CONNECT TO ANY DATA SOURCE
